

Are We Becoming Gods?

Technology is changing fast. From brain chips to artificial intelligence, people are asking:

Could we live forever? Could we become more than human?

What Is Transhumanism?

Transhumanism is the idea that we can use technology to overcome our human limits—maybe even death itself. But is that a good thing? Is it even possible?

What Does God Say?

The Bible teaches that we are created by God in His image (Genesis 1:27). We are not machines to be upgraded—we are people with eternal value.

God made us to know Him, not to become gods ourselves. The first sin came from trying to be like God (Genesis 3:5). We still make that mistake today.

The Real Hope

We all feel the pain of sickness, death, and brokenness. But no technology can save us from sin. That's why Jesus came.

Jesus Christ lived a perfect life, died for our sins, and rose again. He offers real eternal life—not through machines, but by grace through faith (John 3:16; Romans 6:23).

What Should I Do?

Turn to God. Trust in Jesus—not technology—for your future. Ask Him to forgive your sin and give you new life.

“For everyone who calls on the name of the Lord will be saved.” (Romans 10:13)

Eternal life is not found in silicon or science—it's found in Messiah Yeshua. Come to Him today.
